

ICE-STAR Szerviz Kft.

Expert in refrigeration
and climate technology

THE RELIABLE PARTNER

ICE-STAR Szerviz Kft.

ICE-STAR Szerviz Kft. established in 2010 is a 100% Hungarian enterprise engaged in professional **design, installation, maintenance, servicing and operation of professional industrial, commercial refrigerating and air conditioning technology systems.**

Zsolt Szabó

Managing Director, Owner

Two other members of our company group are the ICE STAR Kft. that started operating in 2000, and Solar Green Energy Kft. specialized in renewable energy since 2012. During the more than 20 years, we have managed to become **one of the biggest air conditioning, refrigeration and ventilation service providers and stores of Debrecen and East-Hungarian region.**

To ensure constant development, we pay special attention to professionalism, international innovative technological trends, developments and their possible domestic implementation in the spirit of energy efficiency, sustainability and environmental protection.

Our mission is to improve our professional background among such companies and private persons, for whom high added-value professional expertise, experience and reliability are important factors.

Our vision is to become a nationally recognised market leader and a centre of knowledge and innovation in the region in the field of refrigeration and air conditioning technology.

WHY YOU SHOULD CHOOSE ICE-STAR Szerviz Kft.?

THE CONVENIENCE OF A 'TURNKEY' SERVICES

We provide simple, convenient, fast and customized turnkey business process, whether your investment is residential or industrial. After assessing your needs, You can also rely on us for engineering consultation, design, procurement, installation, maintenance, service and operation services customized to your specific needs!

Our 15 pcs service cars are well-equipped with tools and other devices necessary for repairs, thus most troubleshooting can be promptly performed on-site.

We have more than 20 years of professional experience in designing, installing and maintaining refrigeration, air conditioning and ventilation technology systems, so You are assured that You find us an experienced and reliable partner.

The goal of our team of more than 35 personnel is to provide the best professional service to our customers! Therefore, we take the training of our experts seriously, who, in addition to the official examinations, attend regular training courses supported by the manufacturer, according to a specific plan.

Thanks to the manpower of our experts **we perform our work in a flexible manner, with quick response time.** We do our 100% best to achieve quick response times, which is especially crucial during troubleshooting, where every minute of downtime may cost You a lot.

We have **2000+ partners** in the country, whose names alone are an honour to see again. We are proud of that for many years we have been able to satisfy their technical needs and ideas with excellent quality.

THE CONVENIENCE OF TURNKEY SERVICE

We provide simple, convenient, fast and customized turnkey business process, whether your investment is residential or industrial. After assessing your needs, You can also count on us for engineering consultation, design, procurement, installation, maintenance, service and operation services customized to your specific needs!

FACILITY OPERATION

REFRIGERATION

Are You planning a new industrial or commercial refrigeration investment? Or are You about to upgrade your existing refrigeration system? Are You looking for a professional and reliable partner for the longterm maintenance, servicing and operation of your equipment in order to maximise uptime?

Our experts having many years of extensive professional experience can relieve You of the burden of refrigeration issues, whether it is about consultation, design, procurement, installation, maintenance, troubleshooting or operation.

”

ICE-STAR Szervíz Kft. prove to be an ideal partner for the design, installation and operation of the complete refrigeration and air conditioning system for our 2000 sqm frozen bakery production plant.

There was no question of choosing them for our plant extension.

*Attila Mlinkó
Managing Director
Ledora Plus Kft.*

● INDUSTRIAL REFRIGERATION

- Cold rooms
- Product shocking
- Technology-specific refrigeration

● COMMERCIAL REFRIGERATING SYSTEMS

● ENERGY MODERNISATION OF EXISTING SYSTEMS

AIR CONDITIONING

ICE-STAR Szerviz Kft. is an official DAIKIN HOME COMFORT EXPERT partner. Thanks to the wide range of our air conditioning portfolio, You will certainly find the air conditioner optimal for your needs, whether it is cassette, air duct, server, ceiling or parapet air conditioning. There are several air conditioning brands available to fully satisfy different needs.

- ◆ COMPLETE INSTALLATION OF AIR CONDITIONING EQUIPMENT
- ◆ CASSETTE, AIR DUCT, SERVER, CEILING, PARAPET AIR CONDITIONING
- ◆ DAIKING, FUJITSU, MIDEA, GREE, FISHER, TOSHIBA AIR CONDITIONING
- ◆ PROFESSIONAL MAINTENANCE, SERVICING OF AIR CONDITIONING SYSTEMS

”

We have been cooperating with ICE-STAR Szerviz Kft. for more than 10 years. During this period, in addition to maintaining and servicing our appr. 500 air conditioner units, they provided professional installations solutions to our air conditioning technology needs.

*Gábor Mészáros
Technical Controller
BorsodChem Zrt.*

CLIMATE SEPARATION

ICE-STAR Szerviz Kft. is the official distributor of the Dutch BIDDLE climate separator equipment in Hungary, Slovakia, the Czech Republic, Serbia and Ukraine. We have such a unique climate separation technology, using which we can provide the option of free movement in the gates so that You can save a lot of money. So if closing the door is unacceptable due to logistically or conveniently, then climate separation is the right solution.

Why BIDDLE climate separation is unique?

Biddle

”

In the past few years, we have invested in and upgraded our cold rooms with Biddle climate separator units. The past period has clearly demonstrated that the refrigeration plant has operated with fewer faults and lower maintenance requirements as we have closed the doors with automatic climate control units. Not to mention the huge amount of energy saved and our balanced temperature, humidity-free refrigerated areas. Biddle products will continue to play an important role in our future investments.

Váradi Zoltán
Műszaki vezető
Baromfiudvar 2002 Kft.

- ◆ **DRASTIC ENERGY SAVING ACCURATELY SIMULATED IN ADVANCE, MEASURED POSTERIORLY**
- ◆ **FULLY AUTOMATIC, GRADUAL CONTROL**
- ◆ **PERFECTLY LAMINAR OUTLET AIRFLOW**
- ◆ **INVESTMENT RETURN PERIOD OF LESS THAN 1 YEAR**
- ◆ **SIGNIFICANT TAX REIMBURSEMENTS AND ENERGY COUNTS**

RENEWABLE ENERGY

In the spirit of sustainability and environmental protection, technologies based on renewable energy are increasingly coming to the fore. Our company also installs heat pump systems. Heat pumps have low running costs and excellent coefficient of performance, so they are not only good for the environment, but also for your wallet.

Solar Green Energy Kft., a member of our group, is engaged in the complete design, installation and operation of solar power generating systems. The company is also the official dealer of the cutting-edge Austrian FRONIUS inverters.

- **INSTALLATION OF SOLAR AND HEAT PUMP SYSTEMS FOR COMMERCIAL FACILITIES, FAMILY HOUSES**
- **MORE THAN 200 SOLAR SYSTEMS INSTALLED**
- **GRID-CONNECTED OR STANDALONE SOLAR PHOTOVOLTAIC SYSTEMS**
- **DAIKIN, PANASONIC, MIDEA GREE, MITSUBISHI HEAT PUMP SYSTEMS**

”

Our unique requirement was professionally implemented, as they created a 12-space carport complex for us, where the 44.55 kW solar system serves not only its original purpose, but also as a roof function.

*Tamás Tóth
Managing Director
Park Hill Events Hall*

FACILITY OPERATION

Don't want to employ your own staff to maintain, service and operate your refrigeration or air conditioning system? We understand You! The task requires a high level of professionalism and routine, so it is particularly expensive to employ a properly trained and experienced professional full-time. We have experience in a wide range of applications, from simple refrigeration to the operation of cutting-edge chemical refrigeration systems, so you can turn to us with confidence.

”

Whether we are talking about air conditioning or comfort cooling in our offices, air technology in our conference rooms, technological cooling in our laboratories, server rooms, ICE-STAR Szerviz Kft. has been proven to be a reliable and fair partner not only in the field of installation, but also regarding maintenance, service and operation.

*Kiss Gergő
Manager of
NIH Facilities Operations
